### **Research Interests**

The benefits of journaling and Art Therapy

### **Creative & Research Biography**

As a current student in the Graduate Program at the University of Florida, I have always been passionate about the arts as well as working with children, which makes Art Education a perfect fit for me. I enjoy numerous mediums including drawing, painting, ceramics, printmaking, and textiles. Besides focusing on my studies as a graduate student, I work as a substitute teacher and with children in the community as well as with the youth at my church. I am very interested in the idea of art as medicine and the use of journaling and creating art as a means of medicine and healing.
